TC_N_001	High	Grok for Business	BR001-1	Attempt to request access without filling out any required fields.	1. Open the xAI website. 2. Hover the mouse over the "GROK" link/button in the header menu. 3. Click on the "FOR BUSINESS" link/button that appears. 4. Scroll down to the "Request Early Access" form. 5. Without filling out any fields, click the "Request Access" button.		Validate that the form shows appropriate error messages ("Please fill out this field") when submitted with required fields left blank	The form shows appropriate error messages "Please fill out this field"	PASS	
TC_N_002	High	Grok for Business	BR002-2	Attempt to request access using an invalid email address.	1. Open the xAI website. 2. Hover the mouse over the "GROK" link/button in the header menu. 3. Click on the "FOR BUSINESS" link/button that appears. 4. Scroll down to the "Request Early Access" form. 5. Fill in the following fields: - First Name - Last Name - Company Name 6. In the "Email Address" field, enter an invalid address (e.g., test@invalid or test.com). 7. Click the "Request Access" button.	First Name: Harry Last Name: Potter Email Address: test@invalid Company name: Hogwarts	Validate that the system displays an error when an invalid email is entered.	The form displays the error message "Error submitting form, please try again." However, it is not clear what exactly is wrong with the form submission. The error should be more specific, such as: "Please enter a correct email address" "Invalid email address" "Please check your email address"	FAIL	
TC_N_003	High	Grok for Business	BR003-3	Attempt to request access with the 'Company Name' field containing only whitespace.	1. Open the xAI website. 2. Hover the mouse over the "GROK" link/button in the header menu. 3. Click on the "FOR BUSINESS" link/button that appears. 4. Scroll down to the "Request Early Access" form. 5. Fill in the following fields: - First Name - Last Name - Email Address - Company Name (enter only whitespaces) 7. Click the "Request Access" button.	First Name: Harry Last Name: Potter Email Address: HarryPotter@Hogwarts.com	Validate that an error is shown when the 'Company Name' field contains only whitespace	The Request Access form was accepted even though the required field "Company Name" contained only whitespace. The confirmation message received was: "Thank you for your submission! We'll be in touch soon."	FAIL	
TC_N_004	High	Grok for Business	BR004-4	Attempt to request access with numeric characters entered in the 'Last Name' field.	1. Open the xAI website. 2. Hover the mouse over the "GROK" link/button in the header menu. 3. Click on the "FOR BUSINESS" link/button that appears. 4. Scroll down to the "Request Early Access" form. 5. Fill in the following fields: - First Name - Last Name (enter only numeric characters 155) - Email Address - Company Name 7. Click the "Request Access" button.	First Name: Harry Last Name: 155 Email Address: HarryPotter@Hogwarts.com Company name: Hogwarts	Validate that the system rejects numeric input in the 'Last Name' field	The form displays the error message "Error submitting form, please try again." However, it is not clear what exactly is wrong with the form submission. The error should be more specific, such as: "Please enter a correct Last Name" "Please check your Last Name"	FAIL	
TC_N_005	High	Grok for Business	BR005-5	Attempt to request access with special characters in the 'First Name' field.	1. Open the xAI website. 2. Hover the mouse over the "GROK" link/button in the header menu. 3. Click on the "FOR BUSINESS" link/button that appears. 4. Scroll down to the "Request Early Access" form. 5. Fill in the following fields: - First Name (enter only special characters $$%) - Last Name - Email Address - Company Name 7. Click the "Request Access" button.	First Name: $$% Last Name: Potter Email Address: HarryPotter@Hogwarts.com Company name: Hogwarts	Validate that the form displays an error when special characters are entered in the 'First Name' field.	The form displays the error message "Error submitting form, please try again." However, it is not clear what exactly is wrong with filling out the form. The error should be more specific, such as: "Please enter a correct First Name" "Please check your First Name"	FAIL

TC_N_006	High	Colossus	BR006	Title mismatch with page content	1. Navigate to Colossus	xAI page 2. Simulate <title> malfunction - Load page without <title> - Load page with wrong title		- Title bar issues should not further effect normal loading of the page		PASS	
TC_N_007	High	Colossus	BR007	Verify Missing Image Handling	1. Navigate to https://x.ai/colossus page 2. Find an image (e.g., a banner) 3. Change the image's src to an invalid URL (e.g., "missing.png") using developer tools 4. Observe the image area		- A broken image icon appears, or alt text is shown - The layout remains intact		PASS	
TC_N_008	High	Colossus	BR008	Page Resource Blocking	1. Use browser dev tools to block specific resources (JavaScript, certain CSS files) 2. Reload https://x.ai/colossus 3. Observe how the page degrades without these resources		- Page should maintain basic readability even if styling or scripts fail - Critical content should be visible even if enhanced features don't work - No complete page failure if a single resource fails to load		PASS	
TC_N_009	High	Colossus	BR009	Verify the page handles unexpected or invalid URL query parameters gracefully.	1. Navigate to https://x.ai/colossus 2. Manually add arbitrary query parameters to the URL in the address bar (e.g., https://x.ai/colossus?foo=bar&test=123<script>alert(1)</script>) 3. Press Enter to load the modified URL 4. Observe the page for any errors or unexpected behavior.		- The page should load normally, ignoring the unknown parameters - No client-side errors should be triggered by the parameters - The content of the page should remain unchanged - Invalid/malicious parameters should not be reflected or executed on the page		PASS	
TC_N_010	High	Colossus	BR010	Page Load Performance Degradation on Slow Networks	1. Use browser dev tools to throttle network to Slow 3G. 2. Load the page and observe load time and rendering.		- Critical content loads first and is visible early. - No broken layout or missing content due to partial loads. - No infinite loading spinners or timeouts.		PASS

TC_N_016	High	API	BR_P_016	Boundary testing of cost calculator	1)Navigate to the calculator 2)Identify boundaries 3)Test just below the minimum/at the minimum/just above minimum 4)Test just below the maximum/at the maximum/just above maximum		Any negative input should be rejected since the minimum boundary is 0, any number above maximum boundary shoud also be rejected by system	Maximum boundary rejects any number above the maximum value.minimum boundary test fails since systems accepts a negative number.	Fail	
TC_N_017	High	ARI	BR_P_017	Attempt to input invalid symbols or information in a search tab that isn't provided in the module	1) Navigate to API in the header 2)Click on Documentation 3)Navigate to search 4)Input information that is visible below search field 5) Observe the response of the program	$#@$!	There should be nothing found	output is "No results"	PASS	
TC_N_018	High	API	BR_P_018	To verify the behavior of the system when an invalid or non-existent URL is accessed under the https://x.ai/api domain	1) Navigate to API https://x.ai/api 2)Enter an invalid or non-existent URL by modifying the endpoint path. 3)Submit the request by pressing "Enter" in the browser or sending the request in the API testing tool. 4)Observe the response from the server.	https://x.ai/apinonexistent	The system should return a 404 Not Found HTTP status code.A meaningful error message should be displayed, such as: "The requested resource was not found.""Invalid URL. Please check your request and try again."	When accessing https://x.ai/api/invalid-endpoint, the system correctly identified the invalid URL and returned a 404 Not Found status code along with a meaningful error message. This behavior aligns	FAIL	
TC_N_019	Medi...	API	BR_P_019	Verify API Endpoint Behavior with Excessively Long Input String (e.g., 2000Characters).	1) Navigate to API https://x.ai/api 2)Click on documentation 3) Locate search bar 4) Insert long string	generated string with 2000 symbols	There should be a limit of characters that can be input in the search field. System shouldn't allow 10000 characters to be input	The searsch bar accepts 2000 characters	Fail	
TC_N_020	Medi...	API	BR_P_020	Attempt to input a float number into cost calculator	1) Navigate to API to https://x.ai/api#pricing 2)Attempt to input float number by copy-paste method 3) Observe the response of the system	any float number	If the calculator accepts decimals, then a user should have no use with typing a decimal number	the cost calculator doesn't allow to type a float number; however it accepts a float number via copy paste technique.	Fail

TC_N_021	High	Careers	BR_N_021	Verify Error Message for Missing Required Fields (No Fields Filled)	1. Open the job application form. 2. Click the Submit button without filling in any required fields. 3. Verify that the error messages for the missing required fields appear.		The system should display error messages for each missing required field.	The error messages are displayed, indicating that fields are mandatory for form submission.	PASS	
TC_N_022	High	Careers	BR_N_022	Verify Error Message for Invalid Email Format	1. Open the job application form. 2. Fill in the First Name and Last Name fields with valid data. 3. Enter an invalid email (e.g., "invalid-email.com") in the Email field. 4. Click the "Enter manually" button for the Resume field and add fake text. 5. Click the Submit button. 6. Verify that the error message for the invalid email format appears.		The system should show an error message indicating that the email format is invalid.	The system should show an error message indicating that the email format is invalid.	PASS	
TC_N_023	High	Careers	BR_N_023	Verify Error for Missing Resume (No File Provided) with Manual Text Entry	1. Open the job application form. 2. Fill in the First Name and Last Name fields with valid data. 3. Enter a valid email (e.g., "valid-email@example.com") in the Email field. 4.Click the "Enter manually" button for the Resume field, and leave the text field blank (do not add any text). 5.Click the Submit button. 6. Verify the error message for the missing resume appears.		The system should show an error message indicating that a resume is required.	The system displays an error message indicating that the resume is required.	PASS	
TC_N_024	High	Careers	BR_N_024	Verify Error for Invalid First and Last Name (Symbols) and Secure-Code Handling	1. Open the job application form. 2. Fill First Name and Last Name with invalid symbols (!@#$%^&*). 3.Will Email with a valid address (valid.email@example.com). 4. Click Enter manually for Resume, add some fake text, then fill What exceptional work.... 5. Click the Submit button. 6. Email-verification prompt appears: enter an incorrect 8-digit code. 7. Verify that the "Verify" (Submit) button is disabled when the code is wrong.		Rather than navigating to confirmation, the e-mail verification prompt appears and, when an invalid 8-digit code is entered, the "Submit" button remains disabled.	The form bypassed name validation, reached the verification page, and now correctly prevents submission when the wrong code is entered.	PASS	
TC_N_025	High	Careers	BR_N_025	Verify Error on Unsupported Resume File Type	1. Open the job application form. 2. Fill in First Name, Last Name, Email, and "What exceptional work have you done?" with valid data. 3. Click Upload resume, attach a .exe file. 4. Click Submit. 5. Verify that an error message appears under the Resume field.		A resume-error appears after submitting, and the form remains on the application page.	A resume-error appeared after submitting, reached the verification page, and the form stayed on the application page.	PASS
